

Please do not allow LPFM to take priority over FM translator service. We listen to K-Love on a FM translator. This station has a huge positive impact on our community as well as our family. This is family-friendly programming, and that cannot be said of much on FM stations. I know my kids can listen to this station without fear of disturbing lyrics or questionable news items. We would lose K-love should LPFM be allowed priority. Please, please do not take this station away from our community. I do feel like this is a life and death issue. K-love sends a message of love and hope to thousands of listeners in this area, many of whom that is the only hope they know. Thank you.
